Thank you for your interest in our products. Fill out this form to help us complete your quote/order. Please use this form to choose how you would like the unit to operate. For questions that have boxes, circle your selections. Anywhere that denotes "Response:" should be followed by your typed or written response to the question immediately before the quoted text.

1) M2115 Model:

M2115M	M2115B	M2115B-RM	M2115B-25
---------------	---------------	------------------	------------------

2) Answer only if Model M2115B, M2115B-RM, or M2115B-25 was selected.

a. Remote Interface?

Yes	No
-----	----

If yes,

• Will there be remote channel selection?

Yes	No
-----	----

• If so, how many channels will be remotely selectable? _____ Channels

Explain in the space below how many remote controllers are desired, the color of each (beige or black), how far away from the radio each will be, what type of microphone, and if remote frequency selection is desired whether or not frequency control will be allowed for each unit. If there is an existing system, please explain your current system in detail.

Response:

3) What frequencies will be pre-programmed into the radio? Up to 3 frequencies are included, additional frequencies costs an additional \$25. If more frequencies are needed than can be filled in here, just let us know. Up to 255 channels may be programmed into the radio.

Ch #	Frequency	Ch #	Frequency	Ch #	Frequency
	MHz		MHz		MHz
	MHz		MHz		MHz
	MHz		MHz		MHz

4) Is it desired to have Mentor Radio test the highest output power setting of each of the pre-programmed frequency and provide a small report showcasing the results? This service costs an additional \$25.

Yes	No
-----	----

5) What usernames and passwords will be desired? Creating a username/password locks unwanted access to adding/deleting/editing channel frequencies and transmit power and resetting the software in the radio. Usernames and passwords may contain any ASCII character from 1-10 characters in length.

Username	Password	Username	Password

6) Is an antenna needed for the radio?

Yes	No
-----	----

a. What kind is needed (See www.mentorradiocom.com, accessories and antennas for options)?

7) Is antenna cable needed (See www.mentorradiocom.com, accessories, cable for options)?

Length: _____ ft Type: _____

8) If there is an existing antenna and cable, what type of connection is desired on the radio? (Circle one)

SMA **BNC** **UHF** **TNC** **OTHER:** _____

9) Will there be an external speaker or audio system that will be connected to the radio? Describe the system in detail below. Include any interface details pertinent to the radio, e.g. type of audio connector, output audio impedance, etc.

Response:

10) A handheld microphone is included with each radio. Other types of microphones are additional. Is another type of microphone desired (Bluetooth, wired headset, desktop style, etc.) ? Please list.

Response:

11) Do you need a USB cable to talk to the radio? Our radios have the ability to interface to a PC, a feature that is desirable if cloning the radio's software. It needs a USB-A to USB-A cable to interface to a PC.

Yes	No
-----	----

12) If there is anything unique to this system? Meaning, is there some special function that is desired of an M2115 that is not covered in the rest of this document? Note that extra costs may be incurred do to NRE depending on what is desired.

Response:
